

At the Institute of Medical Psychology, Otto-von-Guericke University of Magdeburg
(Director: Prof. Dr. Bernhard Sabel) a position of

- **Neuropsychologist / Cognitive Neuroscientist**

is available. The candidate will carry out research in the fields of:

- Neuroplasticity in normal Aging or age-associated disorders (such as stroke) using fMRI
- Development of new approaches for the treatment of patients with cognitive or vision impairments (including training and electrical stimulation using TMS or non-invasive current stimulation).

The position is available for an initial period of 3 years with an extension possibility. Salary is according to German scale for research staff personnel (TVL-13).

We are an interdisciplinary team (psychologist, biologists, medical scientists) and work in an exiting neuroscience environment with many collaboration opportunities on campus. We offer a pleasant and productive working environment and support our employees to achieve scientific progress in an internationally competitive environment; only minor teaching duties of medical students. Prior experience in scientific publishing is essential.

Your qualifications are:

- PhD in Psychology or related fields (e.g. Neuroscience, Behav. Biology, Medicine).
- Experience in carrying out competitive research and publish in international journals
- Team spirit and the burning desire to be successful

Please send CV and publication list with selected reprints (pdf) by email.

Prof. Dr. Bernhard A. Sabel.
